SERVICE LEVEL AGREEMENT

Oraya AI Voice Platform for Automotive Dealerships

Effective Date: Upon execution of Pilot Agreement | Version 1.0 | March 29, 2026

1. Parties and Purpose

This Service Level Agreement ("SLA") is entered into between **Oraya Corporation**, a California C Corporation ("Provider"), and the dealership or dealership group executing the accompanying Pilot Agreement ("Client"). This SLA defines the performance standards, uptime commitments, response times, and accountability measures that Oraya Corporation commits to maintaining throughout the pilot period and any subsequent production engagement.

2. Platform Uptime and Availability

Component	Uptime Target	Measurement	Reporting
Voice AI Agent (Retell AI)	99.5%	Monthly avg, excluding scheduled maintenance	Weekly
Telephony (Twilio)	99.9%	Per Twilio published SLA	Monthly
Workflow Engine (N8N)	99.0%	Monthly avg, self-hosted monitoring	Weekly
Analytics Dashboard	99.0%	Monthly avg, Vercel hosting	Monthly
SMS/Email Notifications	99.5%	Delivery success rate	Weekly

Scheduled maintenance windows will be communicated at least 48 hours in advance and will occur outside of dealership business hours (before 7:00 AM or after 9:00 PM local time). Unplanned outages will be communicated within 30 minutes of detection.

3. Outbound Call Performance

The industry standard initial outbound connection rate for AI voice platforms is approximately 75%, accounting for voicemail routing, carrier filtering, and recipient availability. Oraya Corporation commits to the following enhanced performance standard:

Metric	Baseline	Oraya Commitment	How We Achieve This

Oraya Corporation · All rights reserved.

Confidential property of Oraya Corporation · Unauthorized reproduction or distribution is strictly prohibited

HQ 5560 Lexington Avenue, 429 · San Jose, CA 95123 · United States
support@orayalabs.ai
+1 (724) 903-5964 · orayalabs.ai

Initial connection rate	75%	75% minimum	Direct Twilio A2P 10DLC routing
Effective reach (with retry)	75%	95%+ target	Proprietary N8N retry workflow (see below)
Speed to lead (inbound)	Industry: 5-30 min	Under 60 seconds	Automated AI pickup, zero queue
Speed to lead (outbound)	Industry: hours/days	Under 5 minutes	Triggered by lead list upload (pilot); CRM event trigger available post-pilot)
Voicemail detection	N/A	Logged + retried	AMD detection, callback scheduling

Proprietary Retry System

Oraya has developed a proprietary outbound retry workflow that significantly exceeds the industry standard 75% initial connection rate. When an outbound call fails to connect (busy signal, voicemail, carrier block, or no answer), the system operates as follows:

1. The failed call data (recipient, reason, timestamp, context) is captured in real time.
2. This data is routed to our N8N workflow orchestration engine.
3. N8N initiates a retry through an alternate trigger path, using the same AI agent with full context preserved.
4. Retry timing is intelligent: calls are rescheduled based on the failure reason (immediate for carrier blocks, delayed for busy/voicemail).
5. All retry attempts are logged in the compliance audit trail with timestamps and outcomes.

This system is designed to push the effective outbound reach to **95% or higher**, ensuring that the dealership's lead lists are worked thoroughly without manual intervention.

4. Response and Resolution Times

Severity	Definition	Response Time	Resolution Target
Critical (P1)	System fully down, no calls processing	30 minutes	4 hours
High (P2)	Degraded performance or partial outage	2 hours	8 hours
Medium (P3)	Single feature impaired, workaround available	4 hours	24 hours
Low (P4)	Cosmetic issue or enhancement request	1 business day	Next release cycle

5. Compliance Guarantees

Oraya Corporation guarantees the following compliance measures on every interaction:

TCPA: Prior express written consent (PEWC) verified before every outbound call. Automated opt-out processing. Do-not-call list synchronization.

CIPA (California): All-party recording disclosure delivered at the start of every call. Hard-coded into the AI agent prompt; cannot be overridden.

CPRA: Consumer data handled per CPRA "service provider" definition. Data purged upon termination. No sale or sharing of consumer data.

FTC Bot-Identity Rules: AI agent identifies itself as an automated system within the first 15 seconds of every call.

Consent Ledger: Immutable, timestamped log of every consent event, accessible to Client at any time.

6. Reporting and Transparency

Client will receive the following reports at no additional cost:

Weekly: Call volume, connection rates, appointments booked, follow-ups completed, escalation events, AI performance summary.

Monthly: Comprehensive performance report covering all SLA metrics, compliance audit log, uptime history, and recommendations.

Day 30 Pilot Report: Full written assessment of pilot performance across four dimensions: operational efficiency, revenue impact, customer experience, and compliance posture.

Real-time Dashboard: 24/7 access to the Oraya analytics dashboard showing live call data, appointment status, and system health.

7. Data Ownership and Security

All customer data processed by Oraya remains the sole property of the Client. Oraya Corporation acts as a "service provider" under CPRA and processes data only under Client's direction. Upon termination of the pilot or production agreement, all Client data is purged within 72 hours and a written deletion confirmation is provided. Call recordings are stored with AES-256 encryption and access is restricted to authorized personnel only.

8. Demonstrated Capability: Adjacent Vertical Results

The Oraya AI voice platform has been deployed in the insurance lead generation vertical with the following observed results during its initial operational period:

Oraya Corporation · All rights reserved.
Confidential property of Oraya Corporation · Unauthorized reproduction or distribution is strictly prohibited

HQ 5560 Lexington Avenue, 429 · San Jose, CA 95123 · United States
support@orayalabs.ai
+1 (724) 903-5964 · orayalabs.ai

Metric	Observed Result
Qualified appointments per day	15 to 20
Show rate (appointments attended)	7 to 9 per day (approximately 50%)
Policies closed per day	3 to 4
Revenue generated (first operational week)	$27,000
Speed to lead (after lead ingestion)	Under 2 minutes

Important Disclaimer: The results described above were observed in an insurance lead generation context with a specific market, audience, and product mix. These figures are presented as a demonstration of the platform's operational capability and are not a guarantee of equivalent performance in the automotive dealership vertical. Actual results will vary based on lead quality, market conditions, dealership processes, and consumer behavior. The purpose of the pilot program is to establish automotive-specific benchmarks under controlled, measurable conditions.

9. Limitation of Liability

Oraya Corporation's total aggregate liability under this SLA, whether in contract, tort, or otherwise, shall not exceed the total fees paid by Client to Oraya in the twelve (12) months preceding the claim. During the complimentary pilot period, Oraya's liability is limited to direct damages not exceeding $5,000. Neither party shall be liable for indirect, incidental, consequential, or punitive damages.

10. Insurance Coverage

Oraya Corporation maintains the following insurance coverage relevant to this engagement:

Professional Liability (Errors and Omissions): Covers claims arising from professional services, including software errors, data processing failures, and advice provided in connection with the platform.

Cyber Liability: Covers data breaches, unauthorized access, notification costs, credit monitoring, regulatory fines, and business interruption related to cyber incidents.

Certificates of insurance are available upon request.

11. Governing Law and Dispute Resolution

This SLA is governed by the laws of the State of California. Any dispute shall first be submitted to good-faith negotiation between the parties for a period of thirty (30) days. If unresolved, the dispute shall be submitted to binding arbitration in San Jose, California, under the rules of the American Arbitration Association. Each party bears its own costs unless the arbitrator determines otherwise.
