SUMMARY OF THE INTERNSHIP

The internship at Fraudopedia Private Limited (20th June 2025 – 20th September 2025) provided sustained and intellectually demanding exposure to fraud examination, securities regulation, and the application of Artificial Intelligence to large-scale legal research. Over thirteen weeks, the intern systematically extracted SEC Accounting and Auditing Enforcement Release (AAER) data from 1997 through 2025, classified each entry by fraud scheme typology, and applied AI-assisted analytical tools to synthesise salient aspects of fraud schemes, enforcement actions, and resolutions with the SEC. The engagement culminated in a consolidated research report with comparative mapping onto the Indian forensic audit framework, and represented the most technology-intensive legal research undertaken during the course of the academic programme.
